

Promoting the Contest

Boosting a Post

This is a detailed lecture containing a lot of on-screen steps and explanations, therefore I can't do it any justice at all on a written document. It really needs to be studied carefully by watching the video.

You can spend as little as \$10 to boost your contest post, so this does need to break the bank!

Zero Cost Alternative

However, if you prefer to spend nothing at all, there is an alternative way to do this, but it's more work and will take longer. So, if using the free method only, I recommend you extend your contest from 21 days (recommended length if using the 'Boost' method) to around 28 days.

Again, please refer to the video for full details 😊

Picking a winner:

Download the email addresses of the entrants (from your autoresponder)

Enter them into a free online random selector;

<http://random-ize.com/pick-from-list/>

As always, do not rely ONLY on the PDF's. The videos are much more detailed and must be watched in order to gain a full understanding of the process.
